DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raymond Augustin on July 24, 2006.

The application has been amended as follows:

Claim 1, line 10, the phrase "at the distal end" has been deleted.

Claim 38, line 15 after the word "neck" the following has been entered : ---registration element of at least one stem---.

Claim 39, the preamble in line 1 "kit for a modular prosthesis" has been substitute by the following: ---modular prosthesis kit---.

Claim 46, the preamble in line 1 "kit for a modular prosthesis" has been substituted by the following: ---modular prosthesis kit---.

The following is an examiner's statement of reasons for allowance: After careful consideration of the Applicant's remarks the Examiner has found the independent claims are allowable. There is no evidence in the prior art of a kit for a modular prosthesis comprising a plurality of stems having a conically tapered locking portion extending along an axis and having a registration element, a plurality of necks having a conically tapered locking portion for lockingly engaging the stem locking portion, the neck locking portion having a registration

element, each of the plurality of necks having a registration element engagable with the stem registration element of at least one of the plurality of stems in at least one circumferential position and at least one neck of said plurality of necks having a registration element which engages the registration element of at least one of the stems in a manner which prevents the engagement of the stem and neck locking portions in any circumferential position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
